Summary

As a UX/UI Designer, I create intuitive digital experiences through clean UI design and user research. I am passionate about learning and solving user problems with functional and visually appealing designs.

EXPERIENCES

UX/UI Designer | Makeen Ideal Media INS.

April 2024-present ● Full time

Projects

1.Karimaneh fund management panel   ⤴ **Case Study**

A digital solution to replace manual workflows in small Qard al-Hasan fund management:

- **Dashboard** for monitoring loan status and repayments
- **Increased** transparency in loan tracking
- **Reduced** manual errors and paperwork
- **Improved** accessibility for users with moderate digital literacy

2.Online Clothing Store

An **e-commerce** project focused on user-friendly shopping and responsive design.

- Designed a scalable, **mobile-friendly** layout
- **Improved** product visibility and navigation

Graphic Designer | Freelance

August 2021-April 2024

Created visual designs—posters, book covers, and typography—with a focus on **layout, balance, and clarity**. This experience built a strong foundation in composition, color, and design systems for UX/UI work.
